Subject: Durango Office Space

Libby,

My name is Todd Sieger and I am reaching out to you to see if your organization will potentially be looking for lease space in the Durango area. We own a building in the Durango Tech Center on the west side of Durango and currently have approximately 1,500 sf vacant. The space was previously occupied by the Colorado Bureau of Investigation as an office and a crime lab. The lab still exists, although they have removed their equipment. The building also houses the Colorado Division of Water Resources and the Colorado Department of Vocational Resources in separate office suites. Please let me know if your organization would have any interest in seeing our space or if you would like more information.
